

IN RE: FUTURE MOTION, INC.  
PRODUCTS LIABILITY LITIGATION

This Document Relates to:

*Loh v. Future Motion, Inc.*,

No. 21-cv-06088-BLF

Case No. 23-md-03087-BLF  
21-cv-06088-BLF

**ORDER GRANTING IN PART AND  
DENYING IN PART MOTION TO  
DISMISS AND DENYING MOTION TO  
STRIKE**

[Re: ECF No. 120, 123]

In this putative class action and multi-district litigation (“MDL”) member case, Plaintiffs allege that the Onewheel electronic motorized skateboard has a design defect that causes the board to nosedive, throwing riders off the board, and that Defendant Future Motion, Inc., fraudulently promoted Onewheels as “toys” without adequately warning users of the safety risks. *See* 21-6088 ECF No. 76 (“CCAC”) ¶¶ 2, 5. Defendant has filed two motions in the class action case: a motion to dismiss the consolidated class action complaint for failure to state a claim and a motion to strike the class allegations. *See* ECF No. 120 (“MTS”); ECF No. 123 (“MTD”); *see also* 21-6088 ECF No. 107; 21-6088 ECF No. 109. Plaintiffs oppose both motions. *See* ECF No. 125 (“MTS Opp.”); ECF No. 126 (“MTD Opp.”). Defendant filed replies. *See* ECF No. 121 (“MTS Reply”); ECF No. 125 (“MTD Reply”). The Court held a hearing on the motions on May 23, 2024.

For the reasons stated below, the Court GRANTS WITH LEAVE TO AMEND IN PART, GRANTS WITHOUT LEAVE TO AMEND IN PART, and DENIES IN PART the motion to dismiss and DENIES WITHOUT PREJUDICE the motion to strike.

**I. BACKGROUND**

**A. Factual Background**

The Onewheel is a self-balancing, battery-powered electric skateboard that has a single

1 wheel that is fixed to the center of the board and spans the board’s width and approximately one-  
2 third of its length. *See* CCAC ¶¶ 2, 30, 42. The Onewheel uses an electric motor housed inside  
3 the wheel, a rechargeable lithium battery housed in one side of the rider platform, and a control  
4 module housed in the other side of the platform. *Id.* ¶ 42. A user rides a Onewheel in a similar  
5 fashion to a traditional skateboard or snowboard, with the rider standing on the platform on either  
6 side of the center wheel. *Id.* ¶ 43. The Onewheel is self-balancing, meaning that the machine  
7 keeps the rider balanced in an “inverted pendulum” with the center of mass above the axis of  
8 rotation. *Id.* at ¶¶ 44–47. The rider accelerates by leaning forward and decelerates by leaning  
9 back. *Id.* ¶¶ 48–49.

10 Defendant has developed, produced, and sold the Onewheel since 2013. CCAC ¶ 31.  
11 Defendant has also developed and published owner’s manuals, warranty booklets, advertising, and  
12 technical information about the Onewheel. *Id.* ¶ 32. Defendant conducts warranty repairs and  
13 monitors the performance of Onewheels throughout the United States. *Id.*

14 At issue in this action are all Onewheel models, including the Onewheel (original model),  
15 Onewheel+, Onewheel+ XR, Pint, Pint X, and GT. *See* CCAC ¶1 2 n.2. Defendant lists the top  
16 speed of the original Onewheel as 12 miles per hour (“mph”), the Onewheel+ as 19 mph, the  
17 Onewheel+ XR as 19 mph, the Pint as 16 mph, the Pint X as 18 mph, and the GT as 20 mph. *Id.*  
18 ¶ 33. However, Onewheels have been documented to carry riders at speeds as high as 32 mph. *Id.*

19 On November 16, 2022, the U.S. Consumer Product Safety Commission (“CPSC”) issued  
20 a warning to consumers about the risk of death and serious injury associated with the Onewheel  
21 ejecting riders and urged consumers to immediately stop using all Onewheel models. CCAC ¶ 36.  
22 In response, Defendant refused to agree to a recall and called the CPSC’s statements “unjustified,”  
23 “alarmist,” “harsh,” and “unwarranted.” *Id.* ¶ 37. Defendant maintained that Onewheels are safe  
24 when users ride within their abilities and suggested that riders are at fault when they crash. *Id.*  
25 Defendant also stated that it evaluated a number of Onewheels that had suddenly stopped and  
26 found no underlying technical issues and that the Onewheels performed as designed. *Id.* ¶ 38.

27 Plaintiffs allege that the Onewheel has a “Nosedive Defect” in which the front of the  
28 machine or the “nose” slams into the ground while the board is still traveling forward, which

1 brings the board to an abrupt stop and ejects the rider into the ground. *See* CCAC ¶¶ 54, 59–62.  
2 Plaintiffs allege that “[n]osedives occur when the sensors governing the motor, battery, and  
3 electrical systems detect that the motor, motor circuits, motor components, the battery, or a  
4 combination thereof, are too close to their functional limits,” which causes electrical censors in the  
5 machine to preemptively shut the motor down. *Id.* ¶ 54. Plaintiffs allege that there are two  
6 categories of nosedives: those that are warned by a “Pushback” warning and those without a  
7 warning or an inadequate warning. *Id.* ¶¶ 56–58. The Pushback warning system causes the  
8 machine to “push back” to warn the rider that rider is traveling too fast, ascending a steep hill, or  
9 the battery is too low. *See id.* ¶¶ 63–64. Plaintiffs allege that “[u]nlike other self-balancing  
10 devices, the Onewheel’s Pushback is not strong enough to physically push the rider back to a  
11 stable position over the wheel by itself.” *Id.* ¶ 64. Pushback is the only warning system used by  
12 the Onewheel to warn a rider that the rider needs to change position, and it does not alert the rider  
13 of the reason for the Pushback. *Id.* ¶¶ 65–67.

14 Plaintiffs further allege that the Onewheel’s design (i.e., the length of the board, the wheel,  
15 and the position of the rider) causes the machine to operate too close to the functional limits of the  
16 motor and battery. CCAC ¶ 68. When the Onewheel operates near its functional limits, the power  
17 and torque available to push the rider back is lower, rendering the Pushback warning unnoticeable.  
18 *See id.* ¶¶ 73–76, 81. The Pushback is also “influenced by tire pressure, wind direction, wind  
19 speed, battery level, surface conditions, velocity, grade, terrain, moisture, the rider’s stance, the  
20 rider’s weight, and any other factor that influences the current drawn by the motor.” *Id.* ¶ 79.  
21 Plaintiffs allege that the following defects exist in the Pushback warning system: (1) Pushback  
22 fails to engage before the motor shuts down; (2) Pushback can engage with too little time before  
23 the motor shuts down; and (3) the motor draws too much current and does not leave enough power  
24 in the battery to supply the energy needed for the Pushback. *Id.* ¶ 84. Plaintiffs also allege that  
25 the lithium battery in every Onewheel is defective because it lacks sufficient capacity to self-  
26 balance the board and engage the Pushback system. *Id.* ¶ 85. Plaintiffs further allege that the  
27 motor in every Onewheel is defective because it lacks sufficient torque to self-balance the board  
28 and avoid nosedives. *Id.* ¶ 86.

1 Plaintiffs allege that Defendant knew of the defects in the Onewheel through several  
2 sources: (1) the development of the Onewheel’s firmware and testing of the product, CCAC  
3 ¶¶ 88–93; (2) the Onewheel software application, which collects data on each board’s battery,  
4 shutdowns, and performance, *id.* ¶¶ 94–97; (3) consumer complaints, reports of injuries on the  
5 internet, posts on Defendant’s website, customer reviews on Amazon, and litigation, *id.* ¶¶ 98–  
6 105; and (4) the existence of third-party products designed to make Onewheels safer, *id.* ¶¶ 119–  
7 22. Despite its knowledge, Defendant promoted the Onewheel as a toy that anyone, of any age,  
8 can ride. *Id.* ¶¶ 123–30. Defendant also did not include warnings about the risks of a nosedive in  
9 its Owner’s Manual and otherwise failed to disclose the Nosedive Defect. *Id.* ¶¶ 131–36.  
10 Defendant represents that the Onewheel is safe and that the Pushback feature “will actually and  
11 consistently engage to alert [users] that the board is reaching its operational limits,” but Defendant  
12 fails to mention defects in the Pushback system when describing the feature. *Id.* ¶¶ 137–50.

13 **B. Procedural History**

14 On August 6, 2021, Plaintiffs filed their initial complaint in this class action. *See* 21-6088  
15 ECF No. 1. On September 28, 2021, Plaintiffs amended their complaint as a matter of course.  
16 See 21-6088 ECF No. 7 (“FAC”). After Defendant filed a motion to dismiss and a motion to  
17 strike, the parties stipulated to the withdrawal of the motions and leave to allow Plaintiffs to file a  
18 second amended complaint. *See* 21-6088 ECF No. 31 (granting the stipulation). Plaintiffs filed  
19 their second amended complaint on February 4, 2022. *See* 21-6088 ECF No. 33 (“SAC”). On  
20 July 11, 2022, Judge Davila granted Defendant’s motion to dismiss with leave to amend and  
21 denied Defendant’s motion to strike as moot. *See* 21-6088 ECF No. 56. Judge Davila found that  
22 all claims in the SAC are grounded in fraud and subject to Rule 9(b)’s higher pleading standard.  
23 *Id.* at 9–10. Under this standard, Judge Davila construed the alleged defect to be the Pushback  
24 feature and found that Plaintiffs had failed to sufficiently allege facts that would show the  
25 pushback feature was defective. *See id.* at 12–13. After Judge Davila consolidated a related class  
26 action against Defendant into this action, ECF No. 75, Plaintiffs filed the operative consolidated  
27 class action complaint. *See* CCAC. Defendant again moved to dismiss and moved to strike class  
28 allegations. *See* MTS; MTD. After those motions were fully briefed, the case was reassigned to

1 this Court and consolidated as a member case in the MDL. *See* ECF No. 1 (the transfer order);  
 2 ECF No. 3 (pretrial order no. 1, which consolidated the MDL member cases). The parties  
 3 stipulated to the refiling of Defendant's motion to dismiss and motion to strike for disposition by  
 4 the Court, which the Court granted. *See* ECF No. 88 (stipulation); ECF No. 98 (granting the  
 5 stipulation).

6 The consolidated class action complaint brings claims on behalf of a Nationwide Class, a  
 7 Nationwide Direct Purchase Subclass, and ten state-specific subclasses. *See* CCAC ¶¶ 421–22.

8 Plaintiffs assert the following causes of action:

Count	Claim	Class and Subclasses	¶
1	Breach of Express Warranty	Nationwide	433–40
2	Breach of Implied Warranty	Nationwide	441–46
3	Unjust Enrichment	Nationwide	447–52
4	Common Law Breach of Contract	Nationwide	453–57
5	Breach of Express Warranty in Violation of the Song-Beverly Consumer Warranty Act	Nationwide Nationwide Direct Purchase California	458–65
6	Breach of Implied Warranty in Violation of the Song-Beverly Consumer Warranty Act	Nationwide Nationwide Direct Purchase California	466–79
7	Violations of the California Unfair Competition Law ("UCL")	Nationwide Nationwide Direct Purchase California	480–87
8	Violation of California False Advertising Law ("FAL")	Nationwide Nationwide Direct Purchase California	488–92
9	Violations of the California Consumer Legal Remedies Act ("CLRA")	Nationwide Nationwide Direct Purchase California	493– 506
10 <sup>1</sup>	Violations of the Arizona Consumer Fraud Act	Arizona	507–23
11	Violations of the Florida Deceptive and Unfair Trade Practices Act ("FDUTPA")	Florida	524–43
12	Unjust Enrichment	Florida	544–55
13	Breach of Implied Warranty of Merchantability	Florida	556–67
14	Violation of Hawaii's Unfair Deceptive Acts & Practices Statute	Hawaii	568–74

27 <sup>1</sup> The CCAC restarts its numbering for each state-specific subclass. For example, the claim for  
 28 violations of the Arizona Consumer Fraud Act is labeled "Count One." *See* CCAC ¶¶ 502–23.  
 For convenience and clarity in ruling on these motions, the Court has renumbered them.

1	15	Breach of Implied Warranty of Merchantability	Hawaii	575–87
2	16	Violations of the Massachusetts Consumer Protection Act	Massachusetts	588–604
3	17	Breach of Implied Warranty of Merchantability	Massachusetts	605–11
4	18	Violation of the Michigan Consumer Protection Act	Michigan	612–28
5	19	Breach of Implied Warranty of Merchantability	Michigan	629–35
6	20	Unjust Enrichment	Michigan	636–44
7	21	Violations of New York General Business Law § 349	New York	645–60
8	22	Violations of New York General Business Law § 350	New York	661–74
9	23	Breach of Implied Warranty of Merchantability	New York	675–81
10	24	Violations of the North Carolina Unfair and Deceptive Acts and Practices Act	North Carolina	682–97
11	25	Breach of Implied Warranty of Merchantability	North Carolina	698–704
12	26	Violations of the Ohio Consumer Sales Practices Act	Ohio	705–23
13	27	Breach of Implied Warranty in Tort	Ohio	724–28
14	28	Violation of Pennsylvania Unfair Trade Practices & Consumer Protection Law	Pennsylvania	729–40
15	29	Breach of Implied Warranty of Merchantability	Pennsylvania	741–48
16	30	Unjust Enrichment	Pennsylvania	749–57

## II. LEGAL STANDARD

### A. Motion to Dismiss

“A Motion to Dismiss under Federal Rule of Civil Procedure 12(b)(6) for failure to state a claim upon which relief can be granted ‘tests the legal sufficiency of a claim.’” *Conservation Force v. Salazar*, 646 F.3d 1240, 1241–42 (9th Cir. 2011) (quoting *Navarro v. Block*, 250 F.3d 729, 732 (9th Cir. 2001)). When determining whether a claim has been stated, the Court accepts as true all well-pled factual allegations and construes them in the light most favorable to the plaintiff. *Reese v. BP Exploration (Alaska) Inc.*, 643 F.3d 681, 690 (9th Cir. 2011). However, the Court need not “accept as true allegations that contradict matters properly subject to judicial notice” or “allegations that are merely conclusory, unwarranted deductions of fact, or unreasonable inferences.” *In re Gilead Scis. Sec. Litig.*, 536 F.3d 1049, 1055 (9th Cir. 2008)

(internal quotation marks and citations omitted). While a complaint need not contain detailed factual allegations, it “must contain sufficient factual matter, accepted as true, to ‘state a claim to relief that is plausible on its face.’” *Ashcroft v. Iqbal*, 556 U.S. 662, 678 (2009) (quoting *Bell Atl. Corp. v. Twombly*, 550 U.S. 544, 570 (2007)). A claim is facially plausible when it “allows the court to draw the reasonable inference that the defendant is liable for the misconduct alleged.” *Id.*

“In alleging fraud or mistake, a party must state with particularity the circumstances constituting fraud or mistake.” Fed. R. Civ. P. 9(b). “Parties must allege fraud with particularity under Federal Rule of Civil Procedure 9(b), including the ‘who, what, when, where, and how of the misconduct charged.’” *Coronavirus Rep. v. Apple, Inc.*, 85 F.4th 948, 958 (9th Cir. 2023) (quoting *Depot, Inc. v. Caring for Montanans, Inc.*, 915 F.3d 643, 668 (9th Cir. 2019)). Allegations of the circumstances constituting fraud must “be specific enough to give defendants notice of the particular misconduct . . . so that they can defend against the charge.” *Vess v. Ciba-Geigy Corp. USA*, 317 F.3d 1097, 1106 (9th Cir. 2003) (quoting *Bly-Magee v. California*, 236 F.3d 1014, 1019 (9th Cir. 2001)).

In deciding whether to grant leave to amend, the Court must consider the factors set forth by the Supreme Court in *Foman v. Davis*, 371 U.S. 178 (1962), and discussed at length by the Ninth Circuit in *Eminence Capital, LLC v. Aspeon, Inc.*, 316 F.3d 1048 (9th Cir. 2003). A district court ordinarily must grant leave to amend unless one or more of the *Foman* factors is present: (1) undue delay, (2) bad faith or dilatory motive, (3) repeated failure to cure deficiencies by amendment, (4) undue prejudice to the opposing party, or (5) futility of amendment. *Eminence Capital*, 316 F.3d at 1052. “[I]t is the consideration of prejudice to the opposing party that carries the greatest weight.” *Id.* However, a strong showing with respect to one of the other factors may warrant denial of leave to amend. *Id.*

#### 24           **B. Motion to Strike**

Under Federal Rule of Civil Procedure 12(f), “[t]he court may strike from a pleading an insufficient defense or any redundant, immaterial, impertinent, or scandalous matter.” “[T]he function of a 12(f) motion to strike is to avoid the expenditure of time and money that must arise from litigating spurious issues by dispensing with those issues prior to trial.” *Sidney-Vinstein v.*

1       *A.H. Robins Co.*, 697 F.2d 880, 885 (9th Cir. 1983). Although class allegations may be stricken at  
2 the pleading stage, “motions to strike class allegations are generally disfavored because ‘a motion  
3 for class certification is a more appropriate vehicle.’” *Lyons v. Coxcom, Inc.*, 718 F.Supp.2d 1232,  
4 1235–36 (S.D. Cal. 2009) (quoting *Thorpe v. Abbott Lab., Inc.*, 534 F.Supp.2d 1120, 1125 (N.D.  
5 Cal. 2008)). “Before a motion to strike is granted . . . the court must be convinced that any  
6 questions of law are clear and not in dispute, and that under no set of circumstances could the  
7 claim or defense succeed.” *Erceg v. LendingClub Corp.*, 475 F.Supp.3d 1071, 1075 (N.D. Cal.  
8 2020). “Given their disfavored status, courts often require ‘a showing of prejudice by the moving  
9 party’ before granting the requested relief.” *Mag Instrument, Inc. v. JS Prod., Inc.*, 595 F.Supp.2d  
10 1102, 1106 (C.D. Cal. 2008) (quoting *Neilson v. Union Bank of Cal., N.A.*, 290 F.Supp.2d 1101,  
11 1152 (C.D.Cal.2003)). “In determining whether to grant a motion to strike, a district court views  
12 the pleadings in a light most favorable to the non-moving party.” *Id.*

### 13       **III. DISCUSSION**

#### 14       **A. Motion to Dismiss**

##### 15       **1. Applicable Pleading Standard**

16       Defendant argues that all of Plaintiffs’ claims sound in fraud or misrepresentation and must  
17 be evaluated by Rule 9(b)’s heightened pleading standard. MTD at 8. Plaintiffs argue that their  
18 warranty and design defect claims do not sound in fraud and are only subject to the traditional  
19 notice pleading standard under Rule 8(a). MTD Opp. at 9.

20       As stated above, Federal Rule of Civil Procedure 9(b) requires allegations of fraud to be  
21 pled with particularity. This applies even when fraud is not an essential element of a claim. *See*  
22 *Vess*, 317 F.3d at 1103. Where plaintiffs allege that a defendant has engaged in “a unified course  
23 of fraudulent conduct and rely entirely on that course of conduct as the basis of a claim,” the claim  
24 is said to be “grounded in fraud” or to “sound in fraud” such that the claim as a whole must satisfy  
25 Rule 9(b). *Id.* at 1103–04. Where a plaintiff alleges some fraudulent and some non-fraudulent  
26 conduct, only the allegations of fraud must satisfy Rule 9(b). *Id.* at 1104.

27       Judge Davila’s order dismissing the SAC found that all of Plaintiffs’ claims sounded in  
28 fraud and were subject to Rule 9(b)’s heightened pleading standard. ECF No. 56 at 9–10. In

1 particular, Judge Davila found that Plaintiffs' claims relied on the same unified theory that  
2 "Defendant harmed its customers by fraudulently representing the safety and craftsmanship of the  
3 Onewheel." *Id.* at 10. The Court finds that the same is true of the CCAC. To the extent that  
4 Plaintiffs argue that their warranty and "design defect" claims do not sound in fraud, the Court  
5 first notes that Plaintiffs are not clear about which of their 30 claims are design defect claims.  
6 Moreover, on review of each of Plaintiffs claims, the Court finds that each claim relies on the  
7 same underlying theory of liability and allegations of a unified course of conduct: Plaintiffs allege  
8 that they were harmed when Defendant fraudulently misrepresented the Onewheel as safe and free  
9 from defects or failed to disclose that the Onewheel had a design defect. *See, e.g.,* CCAC ¶¶ 443–  
10 44 (alleging that Defendant impliedly warranted that the Onewheel was safe and free from  
11 defects); *id.* ¶ 482 (alleging that Defendant engaged in fraudulent, unlawful, and unfair conduct in  
12 failing to disclose the defect in marketing and selling the Onewheel); *see also Arabian v. Organic*  
13 *Candy Factory*, No. 217CV05410ODWPLA, 2018 WL 1406608, at \*3 (C.D. Cal. Mar. 19, 2018)  
14 (applying the heightened pleading standard of Rule 9(b) to claims of breach of express warranty,  
15 breach of implied warranty, breach of contract, and unjust enrichment because the plaintiff's  
16 claims arose from a unified course of conduct: the defendant's misrepresentation that its products  
17 contained real flavors). Accordingly, each claim is subject to the requirements of Rule 9(b).

## 18           **2. Adequacy of Allegations of a Defect**

19           Defendant argues that Plaintiffs have not adequately alleged a defect because nosedives are  
20 an effect of a defect but not an independent defect and Plaintiffs have identified numerous  
21 purportedly defective parts without clearly identifying which of those parts is defective. MTD at  
22 9–11. Plaintiffs argue that they have adequately alleged a defect and they need not allege the  
23 causal pathway of the defect to state a claim. MTD Opp. at 11–15. In reply, Defendant argues  
24 that, without greater specificity, Plaintiffs allegations would make discovery unwieldy and  
25 unmanageable, and that Plaintiffs must identify a single part or component that is defective. MTD  
26 Reply at 3–5.

27           "To comply with Rule 9(b), allegations of fraud must be 'specific enough to give  
28 defendants notice of the particular misconduct which is alleged to constitute the fraud charged so

1 that they can defend against the charge and not just deny that they have done anything wrong.”  
2 *Bly-Magee*, 236 F.3d at 1019 (quoting *Neubronner v. Milken*, 6 F.3d 666, 672 (9th Cir. 1993)).  
3 Courts have dismissed causes of action sounding in fraud when the alleged defect is not well-  
4 defined. *See, e.g., Wilson v. Hewlett-Packard Co.*, 668 F.3d 1136, 1145 (9th Cir. 2012) (affirming  
5 a district court’s dismissal for failure to allege an unreasonable safety defect because the plaintiffs  
6 failed to allege how “the loss of connection between the power jack and the motherboard, causes  
7 the Laptops to burst into flames”); *Hauck v. Advanced Micro Devices, Inc.*, No. 18-CV-00447-  
8 LHK, 2018 WL 5729234, at \*5 (N.D. Cal. Oct. 29, 2018) (“Given Plaintiffs’ vague and  
9 inconsistent definitions of Defect, AMD can hardly be expected to know exactly what the contents  
10 of its alleged misrepresentations are.”); *Punian v. Gillette Co.*, No. 14-CV-05028-LHK, 2016 WL  
11 1029607, at \*14 (N.D. Cal. Mar. 15, 2016) (“Plaintiff cites no case—and the Court is aware of  
12 none—where a court has found that such an unspecified potential to fail suffices to allege a  
13 material product defect.”).

14 The CCAC alleges that Onewheel users have experienced a phenomenon in which the  
15 front of the machine slams into the ground while the board is traveling forward, which brings the  
16 board to an abrupt stop and ejects the rider to the ground. *See* CCAC ¶¶ 54, 59–62. The Court  
17 agrees with Defendant that the propensity of the Onewheel to nosedive is not a *defect*, but an  
18 *effect*. This is significant because other courts have distinguished between the symptoms or  
19 consequences of a defect and the defect itself. *See, e.g., Sciacca v. Apple, Inc.*, 362 F.Supp.3d  
20 787, 797 (N.D. Cal. 2019) (noting that the detaching, cracking, and shattering of Apple Watch  
21 screens are the consequences of a defect, but such allegations are not sufficient to allege a defect  
22 under Rule 9(b)’s heightened pleading standard); *DeCoteau v. FCA US LLC*, No. 2:15-cv-00020-  
23 MCE-EFB, 2015 WL 6951296, at \*3 (E.D. Cal. Nov. 10, 2015) (noting that engine failure is a  
24 symptom, rather than a defect). While the symptoms or consequences of a defect make the  
25 existence of a defect possible, a plaintiff must allege more to make the existence of a defect  
26 plausible.

27 In order to state a claim, Plaintiffs must specifically identify a defect in the design of the  
28 Onewheel—be it a component, feature, or some combination thereof—that could conceivably

cause the Onewheel to nosedive. *See Wilson*, 668 F.3d at 1145 (noting that claims sufficient to survive a motion to dismiss included allegations showing that “the alleged design defect could conceivably lead to a safety hazard”). In doing so, Plaintiffs need not “‘plead the mechanical details’ of a defect in order to state a claim.” *DeCoteau*, 2015 WL 6951296, at \*3 (quoting *Cholakyan v. Mercedes-Benz USA, LLC*, 796 F.Supp.2d 1220, 1237 n.60 (C.D. Cal. 2011)).

The CCAC fails to adequately allege a defect with particularity because it is not clear what the alleged defect is. Plaintiffs point to a plethora of components that could be responsible for nosedives, including “the motor, battery, and electrical systems detect that the motor, motor circuits, motor components, the battery, or a combination thereof.” CCAC ¶ 54. Plaintiffs also point to the design of the Onewheel, including “the length of the board, the wheel, and the position of the rider,” as causing the board to operate too close to its functional limits. *Id.* ¶ 68. Regarding the Pushback feature, Plaintiffs allege that it is defective because it fails to engage, engages too late, and/or engages with too little force to push a rider back. *Id.* ¶ 84. Plaintiffs also allege that the lithium battery in the Onewheel is defective because it lacks sufficient power and that the motor is defective because it lacks sufficient torque. *Id.* ¶¶ 85–86. Finally, Plaintiffs allege that the Pushback is defective because it is the only warning system to alert a rider that the board is approaching its functional limits. *Id.* ¶ 87.

This scattershot approach to pleading is not adequate to give Defendant notice of the “who, what, where, when, and why” of the misconduct alleged such that Defendant can defend against the charge. Plaintiffs’ allegations of a defect identify the overall design of the Onewheel and a laundry list of potentially defective components, but such a pleading is substantially the same as alleging that “the Onewheel is defective” and listing its parts. This is illustrated by the commensurate breadth of Plaintiffs’ discovery requests, which request every document regarding the Onewheel’s design without limitation to a particular part, component, feature, or combination thereof. *See* MTD Reply at 4. Given the breadth of Plaintiffs’ allegations, Defendant can hardly be expected to know what exactly it is defending against. *See Fontalvo ex rel. Fontalvo v. Sikorsky Aircraft Corp.*, No. 13-CV-0331-GPC-KSC, 2013 WL 4401437, at \*4 (S.D. Cal. Aug. 15, 2013) (finding that allegations of a “wide array of parts” that made a helicopter defective were

1 insufficient to state claims for strict products liability, negligence, and breach of warranty); *see*  
2 also *Hauck*, 2018 WL 5729234, at \*5 (noting that vague and inconsistent definitions of a defect  
3 are not sufficient to give the defendant notice of its alleged misrepresentations).

4 Plaintiffs arguments to the contrary are unavailing. Plaintiffs argue that the Court should  
5 follow *MacDonald v. Ford Motor Company*, 37 F.Supp.3d 1087 (N.D. Cal. 2014), and hold that  
6 their allegations of a defect are adequate. MTD Opp. at 11–12. But the question of whether the  
7 allegations of a defect were adequate was not before Judge Tigar in *MacDonald*. In fact, the  
8 section of *MacDonald* on which Plaintiffs rely does not discuss the adequacy of the allegations of  
9 a defect, but instead discusses the adequacy of allegations of the defendant’s knowledge and  
10 omissions. *See MacDonald*, 37 F.Supp.3d at 1095–97. Moreover, Plaintiffs cite *MacDonald* as  
11 stating that a “causal pathway” is not required, but the phrase “causal pathway” does not appear  
12 once in that order. To the extent that Plaintiffs argue that other district court cases have found  
13 similar allegations sufficient, those cases are distinguishable. In each case cited by Plaintiffs, the  
14 complaint alleged a particular defect in a specific part or set of parts in the relevant vehicle. *See,*  
15 *e.g.*, *Zuehlsdorf v. FCA US LLC*, No. EDCV 18-1877 JGB (KKx), 2019 WL 2098352, at \*5 (C.D.  
16 Cal. Apr. 30, 2019) (transmission defect); *Bryde v. Gen. Motors, LLC*, No. 16-CV-02421-WHO,  
17 2016 WL 6804584, at \*14 (N.D. Cal. Nov. 17, 2016) (airbag systems defect); *Asghari v.*  
18 *Volkswagen Grp. of Am., Inc.*, 42 F.Supp.3d 1306, 1312 (C.D. Cal. 2013) (engine defect); *Price v.*  
19 *Kawasaki Motors Corp., USA*, No. SACV 10-01074-JVS, 2011 WL 10948588, at \*1 (C.D. Cal.  
20 Jan. 24, 2011) (engine defect; in particular, “the pistons, piston rings, and cylinders”). Plaintiffs’  
21 allegations are not similarly specific or narrow.

22 Finally, Plaintiffs suggest that the Court should depart from Judge Davila’s order and  
23 decline to follow *DeCoteau*’s approach to evaluating pleadings of a defect. *See* MTD Opp. at 13–  
24 14. In *DeCoteau*, the court observed that “the level of specificity required appears to directly  
25 correlate to the complexity of the machinery in question. . . . [C]omplicated systems . . . demand  
26 more detailed factual allegations in order to identify a plausible defect.” *DeCoteau*, 2015 WL  
27 6951296, at \*3. Finding *DeCoteau* relevant, Judge Davila held that the complex nature of the  
28 Onewheel necessitated that the Plaintiffs allege more specific details about the alleged defect. *See*

1 ECF No. 56 at 13. The Court acknowledges that other courts have found *DeCoteau*  
2 distinguishable and in doing so, at least one court has implied that *DeCoteau*'s approach is  
3 unclear. *See, e.g.*, *Zuehlsdorf*, 2019 WL 2098352, at \*5 ("The [DeCoteau] court did not elaborate  
4 on what type of 'actual facts,' short of a description of the 'mechanical details' of the defect, the  
5 plaintiff might have alleged in order to adequately plead that a defect existed."); *Victorino v. FCA*  
6 *US LLC*, No. 16cv1617-GPC(JLB), 2016 WL 6441518, at \*5 (S.D. Cal. Nov. 1, 2016)  
7 (distinguishing the facts of the case from *DeCoteau*); *see also Williams v. Tesla, Inc.*, No. 20-CV-  
8 08208-HSG, 2021 WL 2531177, at \*4 (N.D. Cal. June 21, 2021) (declining to decide whether  
9 *DeCoteau*'s standard applies). The Court need not decide whether to adopt as a general rule  
10 *DeCoteau*'s approach to evaluating allegations of a defect because Plaintiffs' allegations fail to  
11 allege a defect with the requisite level of particularity to satisfy Rule 9(b). As the Court found  
12 above, because of Plaintiffs' scattershot approach to pleading, Plaintiffs have failed to specifically  
13 or particularly allege a component, feature, or some combination thereof that is defective.

14 Because each of Plaintiffs' claims relies on allegations of a defect, the Court GRANTS  
15 Defendant's motion to dismiss each claim for failure to allege a defect. The Court further finds  
16 that amendment is not futile and DISMISSES these claims with LEAVE TO AMEND.

### 17       **3. Affirmative Misrepresentations**

18 Defendant argues that Counts 1, 3–5, 7–9, 10–12, 14, 16, 18, 20–22, 24, 26, 28, and 30  
19 must be dismissed because Plaintiffs have not pled any misleading statements with particularity.  
20 MTD at 13–14. Defendant also argues that the statements which Plaintiffs have alleged are non-  
21 actionable puffery. *Id.* at 14–16. Plaintiffs argue that they have adequately identified numerous  
22 misrepresentations that are not puffery because they are specific and measurable statements  
23 capable of being proven true or false. MTD Opp. at 18–20.

24 "To state a claim for fraudulent misrepresentation Plaintiff must allege with sufficient  
25 particularity that (1) defendants misrepresented a fact, knowing that the fact was false, and (2) that  
26 plaintiff reasonably relied on this fact to his detriment." *Mewawalla v. Middleman*, 601 F.Supp.3d  
27 574, 599–600 (N.D. Cal. 2022). "[W]hether an alleged misrepresentation 'is a statement of fact'  
28 or is instead 'mere puffery' is a legal question that may be resolved on a Rule 12(b)(6) motion. A

1 statement is considered puffery if the claim is extremely unlikely to induce consumer reliance.”  
2 *Newcal Indus., Inc. v. Ikon Off. Sol.*, 513 F.3d 1038, 1053 (9th Cir. 2008). While subjective and  
3 unverifiable claims about a product are non-actionable puffery, quantifiable statements about the  
4 specific or absolute characteristics of a product are actionable. *Id.*

5 The Court finds that Plaintiffs have adequately pled with particularity misleading  
6 statements. For example, Plaintiffs point to Defendant’s website, which includes statements  
7 touting the Onewheel as safe and easy to use. *See, e.g.*, CCAC ¶ 124 (“[T]here are thousands of  
8 calculations happening per second to keep you perfect.”); *id.* ¶ 127 (“Anyone can ride Onewheel  
9 with a little instruction and practice. Onewheel is packed with technology that actively helps you  
10 balance. . . . Tens of thousands of people of all ages and skill levels have learned to ride and we  
11 know you can do it too.”); ¶ 128 (“There is [no maximum age to ride Onewheel]! We have riders  
12 of all ages and it is never too late to start riding a Onewheel.”).

13 The Court also finds that not all of the statements identified by Plaintiffs are non-  
14 actionable puffery. General statements that a product is safe and reliable are typically puffery.  
15 *See, e.g.*, *Azoulai v. BMW of N. Am. LLC*, Case No. 16-CV-00589-BLF, 2017 WL 1354781, at \*7–  
16 8 (N.D. Cal. Apr. 13, 2017). However, terms that are typical of puffery may be provably false  
17 when considered in context. *See, e.g.*, *Vigil v. Gen. Nutrition Corp.*, 2015 WL 2338982, at \*8–9  
18 (S.D. Cal. May 13, 2015) (noting that the terms “premium” and “maximum” would be puffery in  
19 isolation but when considered in context with other statements on the product’s packaging  
20 promised some effect on male potency that could be proven false). Although broad statements  
21 that a product is safe and reliable are non-actionable puffery, Defendant’s representations that the  
22 Onewheel is safe and “keep[s] you perfect” must be viewed in context. Defendant has advertised  
23 the Onewheel as being so safe that anyone, of all ages and without any limitation, can ride it,  
24 which is a statement that is quantifiable and may be shown to be provably false.

25 Accordingly, Plaintiffs have adequately alleged affirmative misrepresentations and  
26 Defendant’s motion to dismiss is DENIED with respect to this argument.

27 **4. Omission/Duty to Disclose**

28 Defendant also argues that Count 8 must be dismissed because the omission of a material

fact cannot support a claim under California’s False Advertising Law (“FAL”). MTD at 16. Defendant also argues that Plaintiffs’ omission theories should fail because Plaintiffs have failed to allege that Defendant had exclusive knowledge of any defect. *Id.* at 16–17. Plaintiffs argue that Defendant failed to disclose the defect, that reliance is not required, and that the defect is material, but Plaintiffs failed to respond to Defendant’s argument that it did not have exclusive knowledge. See MTD Opp. at 15–18.

As an initial matter, the Court notes that Defendant challenges Plaintiffs’ fraudulent omission theories generally but fails to identify which of Plaintiffs’ claims it challenges. Plaintiffs appear to raise fraudulent omission theories in their claims under the consumer protection statutes of California (Counts 7–9), Arizona (Count 10), Florida (Count 11), Hawaii (Count 14), Massachusetts (Count 16), Michigan (Count 18), New York (Counts 21–22), North Carolina (Count 24), Ohio (Count 26), and Pennsylvania (Count 28). However, Defendant has only briefed the relevant standard under California law without specifying whether and to what extent that standard may also be applied to the laws of other states. See MTD at 16 (citing the standard under California law). Because Defendant has failed to brief the laws of other states, the Court will construe Defendant’s challenge as applying only to the California law claims (Counts 7–9). See *Gausvik v. Perez*, 392 F.3d 1006, 1009 n.1 (9th Cir. 2004) (deeming abandoned issues raised in a notice of appeal but on which no argument or authority was offered in a brief).

“For an omission to be actionable under the CLRA and UCL, ‘the omission must be contrary to a representation actually made by the defendant, or an omission of a fact the defendant was obliged to disclose.’” *Elias v. Hewlett-Packard Co.*, 950 F.Supp.2d 1123, 1134 (N.D. Cal. 2013) (quoting *Daugherty v. American Honda Motor Co., Inc.*, 144 Cal. App. 4th 824, 835 (2006)). A duty to disclose arises under four circumstances: (1) when the defendant is in a fiduciary relationship with the plaintiff; (2) when the defendant had exclusive knowledge of material facts not known or reasonably accessible to the plaintiff; (3) when the defendant actively conceals a material fact from the plaintiff; and (4) when the defendant makes partial representations but also suppresses some material facts. *LiMandri v. Judkins*, 52 Cal.App.4th 326, 336 (1997).

1           Defendant is incorrect that an omission theory cannot support a claim under the FAL.  
2        “When the defendant has not made any statements at all, a plaintiff cannot assert a claim under the  
3        FAL. In contrast, a plaintiff may state a claim under the FAL if the defendant actually made a  
4        statement, but omitted information that undercuts the veracity of the statement.” *See Hodsdon v.*  
5        *Mars, Inc.*, 162 F.Supp.3d 1016, 1023 (N.D. Cal. 2016) (collecting cases). Plaintiffs do not allege  
6        that Defendant failed to make any statements, but rather that Defendant made statements about the  
7        Onewheel’s safety without disclosing a defect prone to cause injury to riders, information that  
8        would clearly undercut the veracity of statements representing that the Onewheel is safe. Thus,  
9        Plaintiffs’ theory of liability could be adequate to support a claim under the FAL.

10           On the adequacy of Plaintiffs’ allegations regarding omissions, the Court finds that  
11        Plaintiffs have failed to adequately allege that Defendant had knowledge of the defect. Under the  
12        CLRA, the plaintiff must allege that the defendant was aware of a defect at the time of sale; under  
13        the FAL, the plaintiff must allege that the defendant knew that the statement was false or  
14        misleading when made; and under the UCL, the plaintiff must also allege knowledge of a defect.  
15        *See Punian*, 2015 WL 4967535, at \*9. The Court first observes that the parties have argued and  
16        briefed two different prongs of the duty to disclose without addressing the other party’s  
17        arguments. *Compare* MTD at 16–17 (arguing that Plaintiffs have failed to meet the exclusive  
18        knowledge prong), *with* MTD Opp. at 17–18 (arguing that Plaintiffs have met the partial  
19        representations prong). However, both prongs require allegations that Defendant had knowledge  
20        of the defect. *See Herron v. Best Buy Co. Inc.*, 924 F.Supp.2d 1161, 1175–77 (E.D. Cal. 2013).  
21        The Court finds that Plaintiffs have failed to allege that Defendant had knowledge of the defect.  
22        Plaintiffs have failed to raise any argument in their opposition brief why Defendant had  
23        knowledge of the defect. Moreover, the Court finds that the CCAC fails to allege with  
24        particularity the circumstances under which Defendant had knowledge of the alleged defect. The  
25        CCAC alleges that Defendant was aware of the defect through the development of the Onewheel’s  
26        firmware, the Onewheel application’s reporting, customer complaints, customer reviews,  
27        litigation, and third-party safety products. *See* CCAC ¶¶ 88–105. Without more specific  
28        allegations regarding the defect, it is difficult to know how Defendant’s development of firmware

1 or its management of the Onewheel application would give Defendant knowledge of the defect.  
2 To the extent that Plaintiffs rely on customer complaints, customer reviews, litigation, and third-  
3 party safety products, none of those sources show that Defendant had knowledge of any defect at  
4 the time the statements were made or at the time of sale. *See Punian*, 2015 WL 4967535, at \*10  
5 (noting that consumer complaints, without more, provided no indication of knowledge of the  
6 defect at the time of sale).

7 Accordingly, the Court GRANTS Defendant's motion to dismiss Counts 7–9 to the extent  
8 they rely on a theory of fraudulent omissions. The Court finds that amendment is not futile and  
9 DISMISSES these claims with LEAVE TO AMEND.

10 **5. Reliance**

11 Defendant argues that Counts 7–10, 18, 21, 24, and 28 should be dismissed because  
12 Plaintiffs have not adequately pled reliance. MTD at 17–19. Defendant also argues that  
13 Plaintiffs' unjust enrichment claims at Counts 3, 20, and 30 should be dismissed to the extent that  
14 they are based on Counts 7–10, 18, 21, 24, and 28. *Id.* at 18. Plaintiffs argue that allegations of  
15 individualized actual reliance are not required for their fraudulent omission theories, and each  
16 Plaintiff has alleged that they viewed and directly relied upon Defendant's advertising of the  
17 Onewheel. MTD Opp. at 16, 20–21.

18 Plaintiffs' claims under the UCL, FAL, CLRA, and the consumer protection statutes of  
19 Arizona, Michigan, New York (with respect to § 350), North Carolina, and Pennsylvania require  
20 allegations of reliance. *See Kwikset Corp. v. Superior Ct.*, 51 Cal.4th 310, 326 (2011) (discussing  
21 California law); *Sanders v. Harris*, No. 1 CA-CV 19-0835, 2021 WL 282261, at \*4 (Ariz. Ct.  
22 App. Jan. 28, 2021) (discussing Arizona law); *Cormier v. PF Fitness-Midland, LLC*, No. 331286,  
23 2017 WL 2390691, at \*7 (Mich. Ct. App. June 1, 2017) (discussing Michigan law), vacated in  
24 part on other grounds, 501 Mich. 1046, 909 N.W.2d 266 (2018); *Gale v. Int'l Bus. Machines*  
25 Corp., 9 A.D.3d 446, 447 (N.Y. Sup. Ct. 2004) (discussing New York law); *Bumpers v. Cmtv.*  
26 *Bank of N. Virginia*, 367 N.C. 81, 88 (2013) (discussing North Carolina law); *Parrish v.*  
27 *Volkswagen Grp. of Am., Inc.*, 463 F.Supp.3d 1043, 1050 (C.D. Cal. 2020) (discussing  
28 Pennsylvania law). In order to establish reliance, “a plaintiff must show that the misrepresentation

1 was an immediate cause of the injury-producing conduct, [but] the plaintiff need not demonstrate  
2 it was the only cause.” *In re Tobacco II Cases*, 46 Cal.4th 298, 326 (2009).

3 In this case, Plaintiffs allege generally that they viewed and relied on Defendant’s  
4 representations to their detriment. *See, e.g.*, CCAC ¶¶ 148–53 (general allegations of reliance).  
5 However, “generic allegations of reliance do not satisfy the particularity standards of Rule 9(b).”  
6 *In re Washington Mut., Inc. Sec., Derivative & ERISA Litig.*, No. 2:08-MD-1919 MJP, 2010 WL  
7 1734848, at \*6 (W.D. Wash. Apr. 28, 2010). For almost all of the named Plaintiffs, Plaintiffs also  
8 allege that the Plaintiff “viewed all of the promotional and instructional videos on Defendant’s  
9 website.” *See id.* ¶¶ 167, 232, 243, 255, 284, 296, 312, 327, 340, 392, 401; *see also id.* ¶¶ 213,  
10 270, 368 (similar allegations that the relevant Plaintiff visited Defendant’s website and viewed all  
11 materials there); *id.* ¶¶ 179–83 (alleging that Plaintiff Smith viewed instructional videos on  
12 Defendant’s website but without specifying which misleading statements Smith saw or relied on);  
13 *id.* ¶¶ 351–52 (alleging that Plaintiff Powell viewed Defendant’s advertisements, but without  
14 specifying which ones). Although these allegations are more specific than Plaintiffs’ generic  
15 allegations of reliance, these allegations fail to meet Rule 9(b)’s particularity requirement because  
16 their breadth does not adequately give Defendant notice about which of its purportedly misleading  
17 statements caused injury to Plaintiffs.

18 Accordingly, Plaintiffs have not adequately alleged reliance, and the Court GRANTS  
19 Defendant’s motion to dismiss Counts 7–10, 18, 21, 24, and 28 for failure to allege reliance. The  
20 Court finds that amendment is not futile and DISMISSES these claims with LEAVE TO AMEND.

## 21       **6. Breach of Express Warranty Claims**

22 Defendant argues that Plaintiffs’ breach of express warranty claims (Counts 1 and 5)  
23 should be dismissed because Plaintiffs have failed to allege that Defendant denied repairs to any of  
24 the Plaintiffs. MTD at 19–21. Plaintiffs conceded that “the Breach of Express Warranty claims  
25 are not viable in this class action.” Opp. at 4 n.2. Accordingly, these claims are DISMISSED  
26 WITHOUT LEAVE TO AMEND.

## 27       **7. Breach of Implied Warranty Claims**

28 Defendant argues that the breach of implied warranty claims (Counts 2, 6, 13, 15, 17, 19,

1 23, 27, and 29) should be dismissed because Plaintiffs have failed to allege that their Onewheels  
2 failed to meet a minimum level of quality. MTD at 21–22. Plaintiffs argue that they have  
3 adequately alleged that Onewheels are unsafe for ordinary use. MTD Opp. at 23–24.

4 “To state a claim for breach of the implied warranty of merchantability, a plaintiff must  
5 plead that ‘the product did not possess even the most basic degree of fitness for ordinary use.’”  
6 *Sloan v. Gen. Motors LLC*, 287 F.Supp.3d 840, 879 (N.D. Cal. 2018) (quoting *Mocek v. Alfa*  
7 *Leisure, Inc.*, 114 Cal.App.4th 402, 406 (2003)). As to vehicle defects, “the ordinary purpose of a  
8 car is not just to provide transportation but rather safe, reliable transportation.” *In re MyFord*  
9 *Touch Consumer Litig.*, 46 F.Supp.3d 936, 980 (N.D. Cal. 2014).

10 The Court finds that Plaintiffs have adequately alleged that Onewheels are unsafe for  
11 ordinary use. Plaintiffs have alleged that the Onewheel, a transportation device, has a defect that  
12 ejects a rider from the board while it is moving, causing severe injury and in some cases death.  
13 See, e.g., CCAC ¶¶ 54, 59–62. These allegations are adequate, on a motion to dismiss, to establish  
14 that Onewheels are not fit for ordinary use. To the extent that Defendant argues that Plaintiffs  
15 have failed to allege that Onewheels do not meet a minimum level of quality because Plaintiffs  
16 have not alleged that they were forced to stop using their Onewheels, this argument is not  
17 appropriate at the motion to dismiss stage. See *Sloan*, 287 F.Supp.3d at 879 (rejecting a similar  
18 argument because questions of a defect’s severity are questions of fact to be left for the jury).

19 Accordingly, Defendant’s motion to dismiss the breach of implied warranty claims for  
20 failure to allege unfitness for ordinary use is DENIED.

21 **8. Breach of Contract Claim**

22 Defendant argues that Plaintiffs’ breach of contract claim (Count 4) should be dismissed  
23 because Plaintiffs have failed to plead a breach of contract with specificity and this claim is barred  
24 by the economic loss rule. MTD at 22. In their opposition, Plaintiffs argue that they have  
25 adequately alleged facts to meet the elements of a breach of contract claim and that they may  
26 allege claims in the alternative. MTD Opp. at 25. However, at the hearing on the motion to  
27 dismiss, Plaintiffs agreed to amend their breach of contract claim to limit its remedy to diminution  
28 in value. See 21-6088 ECF No. 116 at 49:3–15. Accordingly, the Court DISMISSES the breach

1 of contract claim WITH LEAVE TO AMEND such that Plaintiffs can clarify the remedies that  
2 they request under that claim.

### 3       **9. Unjust Enrichment Claims**

4       Defendant argues that Plaintiffs' unjust enrichment claims (Counts 3, 12, 20, and 30)  
5 should be dismissed for the same reasons as Plaintiffs' other claims: Plaintiffs failed to adequately  
6 allege a defect and that Defendant had knowledge of the defect. MTD at 22–23. Plaintiffs have  
7 not responded to Defendant's arguments in their opposition. The Court finds that Plaintiffs' unjust  
8 enrichment claims fail because Plaintiffs have failed to allege a defect and Defendant's knowledge  
9 of the defect and DISMISSES these claims with LEAVE TO AMEND.

### 10      **10. Conclusion**

11     For the reasons stated above, the Court GRANTS IN PART and DENIES IN PART  
12 Defendant's motion to dismiss. Counts 1 and 5 (breach of express warranty) are DISMISSED  
13 WITHOUT LEAVE TO AMEND. All remaining counts are DISMISSED WITH LEAVE TO  
14 AMEND for failure to adequately allege a defect. In addition, Counts 7–9 are DISMISSED  
15 WITH LEAVE TO AMEND to the extent that they rely on a fraudulent omission theory for  
16 failure to allege Defendant's knowledge of a defect. Counts 7–10, 18, 21, 24, and 28 are  
17 DISMISSED WITH LEAVE TO AMEND failure to allege reliance. Count 4 is DISMISSED  
18 WITH LEAVE TO AMEND for Plaintiffs to clarify their requested remedies. Defendant's motion  
19 is DENIED with respect to its arguments regarding misrepresentations and breach of implied  
20 warranty.

### 21      **B. Motion to Strike**

22     Defendant moves to strike the class allegations, arguing that Plaintiffs cannot meet the  
23 requirements of Rule 23. First, Defendant argues that Plaintiffs cannot meet the commonality or  
24 predominance requirements because Plaintiffs have failed to allege a uniform defect or uniformity  
25 regarding misrepresentations, omissions, or reliance thereon. *See* MTS at 8–15. Second,  
26 Defendant argues that the nationwide class should be stricken because common fact issues would  
27 be resolved differently under the laws of various states pursuant to *Mazza v. Am. Honda Motor*  
28 *Co., Inc.*, 666 F.3d 581 (9th Cir. 2012). *Id.* at 15–18. Third, Defendant suggests that class

1 members may not have purchased Onewheels for personal use. *Id.* at 19–20. Fourth, Defendant  
2 argues that Plaintiffs' claims are not typical of class members that have not experienced similar  
3 issues in using or riding their Onewheels. *Id.* at 20–21. Fifth, Defendant argues that Plaintiffs fail  
4 to demonstrate that a class action is the superior method of adjudicating their claims. *Id.* at 21–24.  
5 Finally, Defendant argues that Plaintiffs do not have standing to represent consumers residing  
6 outside of Arizona, California, Florida, Hawaii, Massachusetts, Michigan, New York, North  
7 Carolina, Ohio, and Pennsylvania. *Id.* at 24–25. Plaintiffs emphasize that motions to strike are  
8 rarely granted and respond that they have adequately alleged a uniform defect, that the issues  
9 raised by this class action are not individualized, and that they have alleged uniformity in  
10 Defendant's misrepresentations. *See* MTS Opp. at 15–21. Plaintiffs also argue that a *Mazza*  
11 analysis is premature without discovery. *Id.* at 21–23. Finally, Plaintiffs request that if the motion  
12 to strike is granted, they be granted leave to amend. *Id.* at 23–24.

13 The Court finds that Defendant's motion to strike is premature and will DENY the motion  
14 without prejudice to Defendant raising these issues at class certification. Defendant has failed to  
15 identify any flaws in the CCAC, which the Court views in the light most favorable to Plaintiffs,  
16 that would show that the class allegations are “redundant, immaterial, impertinent, or scandalous”  
17 to justify the generally disfavored remedy of striking such allegations from the CCAC. *See* Fed.  
18 R. Civ. P. 12(f). Nor is the Court “convinced that any questions of law are clear and not in  
19 dispute, and that under no set of circumstances could the claim or defense succeed.” *Erceg*, 475  
20 F.Supp.3d at 1075. Defendant's arguments are better heard and evaluated at the class certification  
21 stage of litigation, after both parties have had adequate time and opportunity to conduct discovery  
22 and assess the viability of the class allegations. To the extent that Defendant suggests that the  
23 Court must conduct a *Mazza* choice-of-law analysis at this stage, not only has Defendant failed to  
24 adequately brief such an analysis, but the *Mazza* analysis is a “fact-heavy inquiry [that] should  
25 occur during the class certification stage, after discovery.” *Clancy v. The Bromley Tea Co.*, 308  
26 F.R.D. 564, 572 (N.D. Cal. 2013) (collecting cases reaching a similar conclusion).

27 Accordingly, Defendant's motion to strike the class allegations is DENIED WITHOUT  
28 PREJUDICE to Defendant raising these issues at class certification.

IV. ORDER

For the foregoing reasons, IT IS HEREBY ORDERED that:

1. Defendant Future Motion, Inc.'s Motion to Dismiss (ECF No. 123; 21-6088 ECF No. 107) is GRANTED IN PART and DENIED IN PART.
  - a. Counts 1 and 5 (claims for breach of express warranty) are DISMISSED WITHOUT LEAVE TO AMEND.
  - b. All remaining Counts are DISMISSED WITH LEAVE TO AMEND such that Plaintiffs may more adequately allege a defect.
  - c. Counts 7–9 are DISMISSED WITH LEAVE TO AMEND to the extent that they rely on a fraudulent omission theory for failure to allege Defendant's knowledge of a defect.
  - d. Counts 7–10, 18, 21, 24, and 28 are DISMISSED WITH LEAVE TO AMEND failure to allege reliance.
  - e. Count 4 is DISMISSED WITH LEAVE TO AMEND for Plaintiffs to clarify their requested remedies.
  - f. Defendant's motion to dismiss is DENIED with respect to the arguments to dismiss based on the issues of misrepresentations and breach of implied warranty.
2. Defendant Future Motion, Inc.'s Motion to Strike (ECF No. 120; 21-6088 ECF No. 109) is DENIED WITHOUT PREJUDICE to Defendant raising these issues at class certification.
3. Plaintiffs SHALL file an amended complaint consistent with this Order within 30 days. Plaintiffs may request an extension of time if needed to facilitate settlement discussions.

Dated: July 12, 2024

  
BETH LABSON FREEMAN  
United States District Judge
